Substances

aquastel
aromatic mernaunce
blue tantalum
green iridium
raptogen: an exhalation that
induces apathy
rhodocrosite
soapstone: slippery of
surface
tincture of zyche
vail-stone
vitriol spirit
Yu-sapphires

Games

rampolio
skax

Appendices (continued)

Vegetation

amanita: a flowering bush	harquidade tree	oak-wort: bitter-tasting plant	silvanissa
ameth: a golden, fragrant flower native to the South	Judas creeper	Oe-pods: used to construct boats by the Saponids of Saponce. "They are the fruit of a great vine, and grow in scimitar-shape. When sufficiently large, we cut and clean them, slit the inner edge, grapple end to end with strong line, and constrict till the pods opens as is desirable. Then when cured, dried, varnished, carved, burnished, and lacquered; fitted with deck, thwarts, and gussets—then have we our boats."	spase-bush: its ground buds are used as a spice, which give off a pleasant fragrance—often used in bartering
asphodel	hilp: herb		sphade
baldama	horse-blossom: common to dales, purple in colour		spikenard: a plant cultivated in fields
balm-cedar	hurse		spinth oak
belch-wort	hyllas		spinifex: dank and yellow; native to the Land of Cutz; commonly grows in clumps on the foreshores of Cutz
bilibob	irix		spurge
black quince	ironweed: native to the Silver desert		squallix
blister bush	jacynth: a plant that attracts nectar moths		Star-blossoms, spread wide, each of magic perfection
ournade: herb	kaobab		stardrops: long-stemmed, grown in beds
bull-thorn	latifers		tamarisk
callow: a plant cultivated in fields	mandrake: an inch above the ground, dull as agates, the eyes of these plants follow the passer-by		telanxis blooms: oil can be produced from this plant
camfer	mead-apple		thamber
candle	mernache		thyssam
cany-flake	mitre-bush		tirrinch
casas: herb	moon geraniums		tubegrass: whistles in the breeze
chastity-plant	mowood : carved and used in the construction of barges		tulsifer
Daobado tree: a rounded massy construction of heavy gnarled branches, these a burnished russet bronze, clumped with dark balls of foliage	mulgoon		Vampire-weed: pale, wind-beaten grass; sticky blades with sinewy fingers that traps the unwary yarrow
drooping pall-willow	mylax		
dymphne	myrhadion		
emmer: a staple crop in Cutz	myrtle		
gallberries : pulpy and black	night-blossoms: white of colour, that release captive half-vegetable grey moths at night to flutter from bloom to bloom		
galls	furze bush: similar to stiff black hair		
ganion	nuxium		
gauze difono			
great water-flamerian: native to South Almerly			
furze bush			
gingle-berry
